Have you noticed any problem in the mouth that interferes with your child's ability to chew, speak or focus on school activities? ☐ Yes ☐ No

I understand that by signing this form I am consenting for the child named above to receive a basic oral health assessment. I understand this assessment is only a limited means of evaluation to assess the student's dental health, and I would need to secure the services of a dentist in order for my child to receive a complete dental examination with x-rays if necessary to maintain good oral health.

I also understand that receiving this preliminary oral health assessment does not establish any new, ongoing, or continuing doctor-patient relationship. Further, I will not hold the dentist or those performing this assessment responsible for the consequences or results should I choose NOT to follow the recommendations listed below.

Section 2. To be completed by the Dentist

I. The Dental Health condition of ________________ on ___________ (date of exam) The date of the exam needs to be within 12 months of the start of the school year in which it is requested. Check one:

☐ Yes, The student listed above is in fit condition of dental health to permit his/her attendance at the public schools.

☐ No, The student listed above is not in fit condition of dental health to permit his/her attendance at the public schools.

NOTE: Not in fit condition of dental health means that a condition exists that interferes with a student's ability to chew, speak or focus on school activities including pain, swelling, or infection related to clinical evidence of open cavities. The designation of not in fit condition of dental health to permit attendance at the public school does not preclude the student from attending school.
